SUMMARY

Developer with 2+ years of experience working remotely for international companies. I have experience working with multicultural teams 100% in English. I implement complete, modern web and mobile applications from design to deployment.

EXPERIENCE

Redeem These Ashes **Illinois, USA (Remote)**
Mobile Developer (Frontend) *(2023 - Present)*

- Using Figma, I created new interfaces and refactored legacy designs, providing a better and more modern user experience.
- Utilizing React Native (TypeScript/JavaScript), I implemented most of the Android frontend, ensuring seamless integration with the Firebase backend.
- Management and versioning were handled with Git and GitHub, following a sprint-based model and using Kanban for efficient organization.

EDUCATION

Brigham Young University – Idaho **Idaho, USA (Remote)**
Bachelor of Applied Science in Software Development *(2024 - 2028)*
Key Certifications: Web & Computer Programming, Full-Stack Web Development, Software Engineering.

FUNVAL **Guatemala (Remote)**
Web Development Bootcamp *(01/25 - 04/25)*
Covered: HTML, CSS, JavaScript, DOM, Tailwind, React, API Consumption, Supabase, MySQL, Git, GitHub, SCRUM.
